THE POWER OF CONNECTORS

DO YOU...

- Like to receive PDF files right the first time?
- Teach your customer technical details over and over again?
- Spend hours of unbillable time correcting incoming files?
- Like to know when a client sends in a file or correction?
- Like to leave work on time?

YES? THEN CONNECT IS THE PERFECT SOLUTION FOR YOU!

CONNECTING YOU TO CONSISTENCY & QUALITY

CONNECTING WITH CONNECTORS

The Enfocus Connect product family generates “apps” called Connectors that incorporate all the details your customers need to submit jobs right into your production.

PRINT SERVICE PROVIDER:

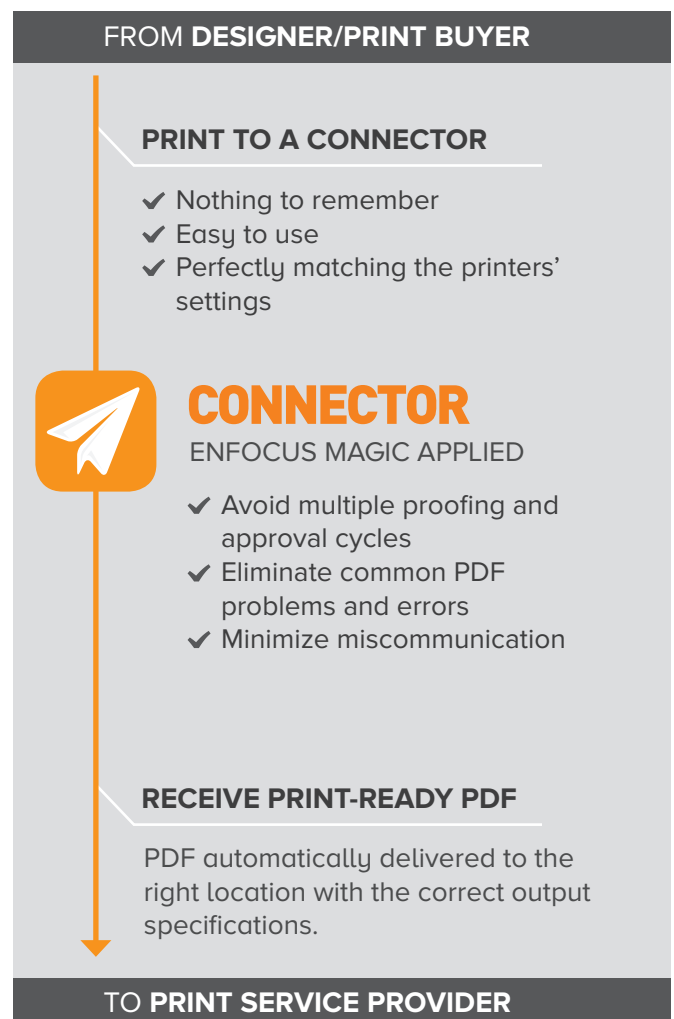

1. Create a branded Connector combining PDF output settings, job ticketing details and file transmission settings.
2. Distribute the Connector to the customer.

DESIGNER/PRINT BUYER:

1. Download the Connector.
2. Export, print or drag-and-drop files onto the Connector.
3. Fill out the job ticket details such as due date, quantity, paper type, etc.

Done. The Connector takes over, generating the PDF file based on the print service provider's requirements and delivering it with the job ticket via FTP, HTTP, Dropbox or email.

NO MORE HASSLE FOR EITHER PARTY!

PRINT SERVICE PROVIDERS CAN DISTRIBUTE AN UNLIMITED NUMBER OF BRANDED CONNECTORS

Connectors ensure that all incoming files meet your production requirements and are accompanied by a job ticket that synchs with both estimating and scheduling systems and your prepress workflow.
