

PDF Review Module

What?

The PDF Review Module is a simple, yet **powerful PDF approval tool**. It is designed to **automate and replace manual email soft proofing**.

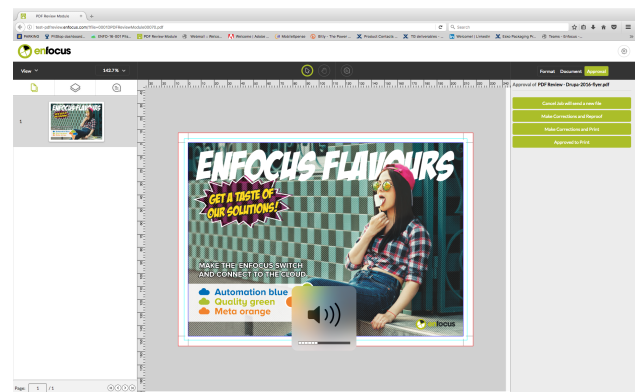

How?

- When a PDF file reaches the PDF Review step in the Switch flow, it is uploaded to the PDF Review **web server**.
- After the upload, an **email with a unique URL** is sent to your customer.
- The customer clicks the link. The PDF file to approve now opens in a **browser-based viewer** that guarantees a **correct display of overprint and transparency**. There is no need to download or install any software.
- The approval **options are customizable** and are defined by the outgoing connections from the PDF Review step in the Switch flow.
- When the customer makes an approval decision, the PDF file is moved back to Switch and **routed to the appropriate branch of the flow**.

Toolset

The following tools are available to the customer within the browser interface. These are **customizable** in Switch, so you don't confuse the customer with tools he does not understand or need.

- Separation view
- Densitometer
- Layer view
- Document information
- Format information
- Wireframe view
- Ink coverage overlay
- Sticky note

PDF Review Module

Setup?

The PDF Review Module consists of two parts, the first is an **app that is installed and used within your Switch flow**. The second part is the **PDF Review web server**, which can be installed anywhere:

- Within your network or DMZ.
- Externally on a datacenter or cloud server.

The PDF Review Module ships with **5 concurrent client licenses**. This means that five customers can view and approve 5 different PDF files at the same time. Additional client licenses can be purchased if required.

Compatibility

The PDF Review Module requires **Switch Core Engine 13 update 1 and above**. For maximum automation and efficiency it is recommended to include the **Metadata Module** to the Switch configuration.

Languages

The browser interface supports the following 17 languages:

- Chinese
- Danish
- Dutch
- English
- Finnish
- French
- German
- Hindi
- Italian
- Japanese
- Korean
- Norwegian
- Polish
- Portuguese (Brazilian)
- Russian
- Spanish
- Swedish
